

Dear praying Brethren,

It is with profound joy that we inform you of the great things that the Lord is doing among us. For some time now, the Lord has been leading us to plant a church a couple miles away from our present church. We already have half the land paid for and trusting the Lord will bring in the rest. Our people are eager and excited to be part of this new growth.

Two Sundays ago, we visited the area to pray for the land that God has graciously given us. Already we have three families attending our church who live in this general area and others are interested in moving there eventually.

We have four young men who have been serving with us and we believe that God may be pleased to use some of them in the new church plant. Josiah's idea has been, if the Lord is pleased, that we use our church as a place to see young men trained, mentored and then deployed to new works. Using this model of training, deploying and supporting them to start new works, will help reach more people with the gospel.

(plot of land for new church plant)

Praises

God has already given us the land needed
Our people's involvement & commitment in the new work
2 salvation decisions last Sunday, already set for discipleship

Prayer Request

For God's guidance and wisdom in His work
For Josiah's health, he has been unwell for sometime

Your fellow brethren,
Josiah & Esther Wambua
