

SHORT!!!!!!!!!!!!!!!

Dear Friend,

Years ago when our time was getting near to be discharged from the military there came a time that we were called "short timers". During that period of time we would go down the hall after work and yell out "SHORT". That time has come once again, but not to be released from military service, but to have the wonderful joy of returning to Brazil on November 17th.

While we do look forward to returning with great anticipation there is also a great sense of gratitude to God for the wonderful way he has blessed us during this furlough time. We have traveled many miles, visited many "ministry partners" who have faithfully supported the ministry in Brazil, as well as seen the Lord provide even more "ministry partners" for the work that still needs to be done.

Please continue to pray for us as the time draws near to return to Brazil. Tickets are purchased and paid for. Packing has started. Plans are being made for the beginning of a new time of service in Brazil. Pray for the sale of the car that was given to us. The money realized by that sale will be invested in the Hope Ranch Ministry. There is still the need for funds to build the first phase of the activity building as well as the remaining 7% of the support needed. Pray as churches consider their 2016 missionary budgets that they will remember these two needs. Remember always the need for new missionaries to plant more churches, develop Hope Ranch Ministries, and to begin a Bible Institute to train nationals in Catalão.

These three needs have been a constant item of prayer for many months. They have been presented to many. Please pray about these needs seeking what God would have you to do to partner with us in meeting them.

In Christ,

Bill and Susan

There is a need for new missionaries to plant more churches, develop Hope Ranch Ministries, and to begin a Bible Institute to train nationals.

Please pray for these needs:

There is a need for additional 7% monthly support.

There is a need for an Activity Center at Hope Ranch to provide a safe place for recreation as well as a larger place to preach God's word.
